PROFILE

I am an enthusiastic and motivated undergraduate student pursuing a degree in Computer Science and Information Technology (CSIT). I have a growing interest in web application development, with a focus on front-end development. I possess basic knowledge of HTML, CSS, JavaScript, and React, which I have utilized to design and develop simple, interactive, and user-friendly web pages and applications.
I am passionate about creating visually appealing and functional web interfaces, with an emphasis on improving user experience. I am eager to further enhance my skills in front-end development, especially in React, and contribute to innovative web-based projects. With a commitment to learning and a keen eye for detail, I strive to grow as a front-end developer in the ever-evolving field of web technology.

KEY SKILLS
